

COVID-JHEEM Results Summary

In this version, we explore how

HIV Outcomes in NYC Under Different Scenarios vis-a-vis COVID-19

Now, we apply an intervention - where we screen 75% of the entire population for HIV in the second half of 2022 (ie, July 1 to Dec 31, 2022):

HIV Outcomes in NYC Under Different Scenarios vis-a-vis COVID-19
